***Allowable Subject Matter***

Claims 8-16 and 43-52 are allowed.

The following is an examiner's statement of reasons for allowance: with respect to independent claim 8, the prior art of record does not teach generation of charged particles from a fusion reaction, directing these particles along a channel within a magnetic field and placing coils in the field with a pair of coils spaced apart along the channel to control the strength of the magnetic field between the coils for processing the particles: with respect to independent claim 43 the prior art does not teach generating charged particles via an IEC device along a magnetic field channel and operating a pair of coils in the channel with the coils spaced apart, to control the strength of the magnetic field in the channel between the coils, and with respect to independent claim 51, does not teach providing a plurality of IEC devices in a magnetic field channel and subsequent reception of a portion of these particles with an energy converter that includes one or more electrically conductive members, to generate electric power.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Mark H Paschall whose telephone number is 703 308-1642. The examiner can normally be reached on 7am - 3pm.
